WHAT PARENTS NEED TO KNOW...

- SEL is a revenue-generating, psychologically manipulative scam.
- When schools tell you it's "evidence-based", it is based upon fraudulent data by woke organizations that sell SEL.
- When schools tell you SEL increases graduation rate, they're lying. It simply means they're graduating students who are illiterate.
- When schools tell you that SEL improves behavior, they're lying. It simply means that they are no longer reporting or punishing inappropriate behavior.

2. Demand that schools let you know in 3 business days if your child makes gender and sex decisions:
