TOOLKIT

Our Back-to-School toolkit caters to a wide range of families. Whether you're a parent who is new to understanding K-12 indoctrination or someone who has been fighting on the front lines, this toolkit offers a collection of valuable resources.

Skill Level 1 Newcomers

For parents seeking insight into their children's experiences while at school, we suggest the following two resources. There is no need to grasp any acronyms and no prior knowledge is required. By following the guidance provided in the volumes below, you can uncover precisely what is occurring or not occurring in your child's school environment.

[10 Questions Every Parent Should Ask, Volume 1](#)

[10 Questions Every Parent Should Ask, Volume 2](#)

K-12 Brainwashing Method - A high level summary of the main pillars that is responsible for bringing in the indoctrination ideologies that families are experiencing today in K-12.

Skill Level 2 Seasoned

For parents who have already been actively opposing sexual and political indoctrination in K-12, the subsequent tactics aim to offer you an innovative approach to staying on offense as you protect your children's innocence.

- ✓ Request (per FERPA) all records maintained by school for each child. Be sure to specifically request all records and notes taken by school counselors.
- ✓ Ask your child's principal, "If a school counselor has an individual meeting with my child, are they required to take official notes of what is being shared during those sessions?"
- ✓ Ask your child's teacher, "How do I request an alternative assignment if my child is required to do something that goes against our religious beliefs?"

Skill Level 3 Experienced

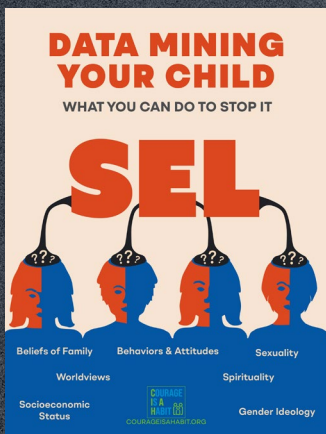

For parents who have been actively leading the charge in their community's education struggle and/or possess considerable experience in engaging with your school board, superintendent, school counselors, librarians, and teachers. Pose the following questions to your school's administration:

- ✓ You assert that your intention is to establish a "safe environment for ALL students." In a scenario where a boy, identifying as a girl, wishes to utilize the girls' restroom and locker room, while a significant number of girls feel unsafe about his presence in their personal spaces, what takes precedence: 1) permitting the boy's use of the girls' facilities, or 2) prioritizing the girls' sense of safety? (*Hint: do not let the Principal or Superintendent "word salad" their way out of this question. Ask for specific examples.*)
- ✓ Is there any professional development training that addresses anti-racism, unconscious bias or equity? If yes, how are teachers trained to resist the racist idea that all white people are privileged and guilty of racism?
- ✓ Are there any BLM flags or LGBTQ+ flags hanging in your school? If yes, where will you be hanging the MAGA and NRA flags for representation? (*The goal is not to add more flags but to expose the hypocrisy to force them to remove all flags, except the American flag.*)

TOOLS FOR PARENTS OF ALL SKILL LEVELS

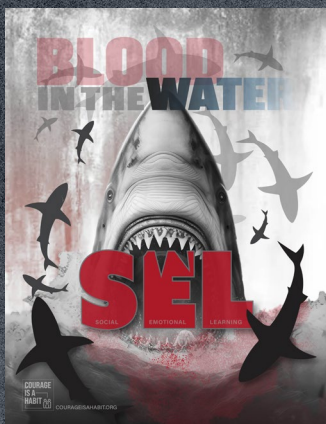

[Stranger Danger](#) • We present four strategies that every family can utilize to educate their children about self-protection while at school. Each strategy can be modified based on family values and the child's age.

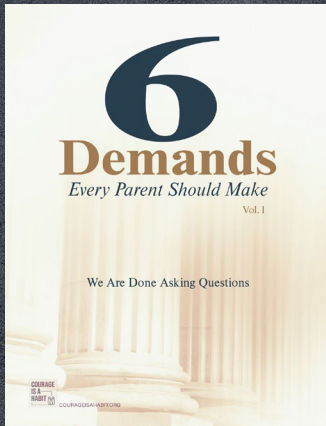

[Opt-Out of All Surveys](#) • This tool provides an explanation of Social Emotional Learning (SEL) surveys. Utilize the enclosed form within this resource to opt your children out from participating in any surveys or data collection. Please complete a separate form for each child.

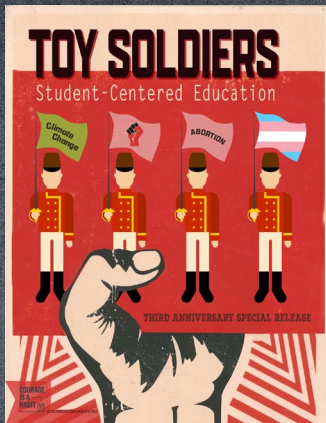

[Behind Closed Doors Part I](#) • Protect your children from mental health professionals. This resource explains how school counselors play a pivotal role in promoting divisive political and confusing gender indoctrination, often presenting it as part of "mental health" initiatives. Utilize the enclosed form within this resource to opt your children out from participating in any formal or informal meetings with mental health professionals while in school. Please complete a separate form for each child.

[Blood In The Water](#) • Shows parents how to utilize a legal precedent to exercise their right to opt their children out of all SEL programs.

[6 Demands Every Parent Should Make](#) • We are done asking. Utilizing unprecedented lawsuits that uphold parental rights, we curated 6 demands that every parent should make this coming school year.

[Toy Soldiers](#) • K-12 schools use “Student Centered”, “Student Led” and “Student Agency” to train your children to be social justice activists.

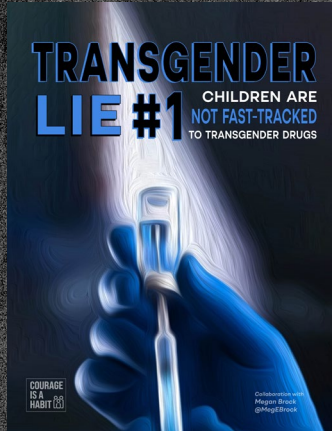

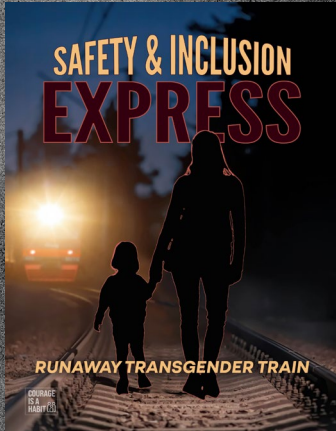

[TRENDemic](#) • Social Emotional Learning (SEL) was sold to parents and taxpayers as the “silver bullet” for K-12 education, promising a new era of academic excellence and emotional stability. Use the data in our tool to prove that has been a lie.

[Opt Out Forms](#) • Download all of our opt-out forms. Use it to project your children, then pass it on to 5 more families.

TRANSGENDER SOCIAL CONTAGION

The following resources will equip parents with the confidence to effectively address the numerous forms of emotional blackmail and manipulation they encounter from the Transgender Cult as they strive to shield their children from the influences and rhetoric of Transgender ideology.

[Safety and Inclusion Express](#)

This resource explains why pronoun enforcement is pushed so aggressively in K-12 and provides guidance on how to avoid manipulation.

[Transgender Lie #1](#)

A common lie often told by the Transgender Cult is that there is a rigorous and lengthy evaluation process that children must undergo prior to receiving destructive puberty blockers and cross-sex hormones. Our resource here dispels that lie.

[Transgender Secrets in K-12](#)

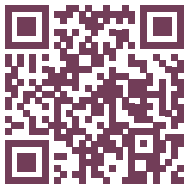

We provide an explanation of how Transgender-related information is withheld from parents across all 50 states, detailing the various approaches that can be employed.

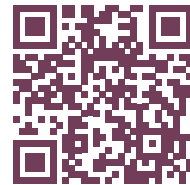

Miriam Grossman, MD, who has spent 40 years treating families and children, offers a [dire warning for parents](#) in this heartfelt video.
