10 Questions Parents Should Ask

A Guide to Defending Your Child

FEAR IS A HABIT

Fear is a habit. Each time you want to speak up and you do not, it becomes a little easier next time to stay silent.

The great news is that courage is also a habit. Each time you speak up, even when you're afraid, it becomes a little easier next time to not stay silent.

The best line of defense for children is their parents. We hope this guide empowers you to engage with your school's administration and be your child's biggest advocate.

HOW TO USE THIS GUIDE

- Select 2-4 questions and schedule an in-person meeting with your principal or superintendent
 - Ask them your questions and observe how they answer
 - If they will not answer directly, that will give you an indication that you should dig a little deeper
-
- Schedule a follow-up a month or two after your initial meeting and present another 2-4 questions from this list

HOW TO USE THIS GUIDE

- Bring 2-3 other parents to meetings. Divide up the questions so each parent knows what their focused topic will be. There is strength in numbers.
- Document all in-person meetings with a follow-up email. List out agreements and next steps. School personnel will often tell you they will “look into it” but never get back to you. Be sure to follow up.
