WHAT IS ASCA?

The American School Counselor Association provides the national mission, strategies, and objectives for school counselors in K-12. (Twitter: [@ASCATweets](https://twitter.com/ASCATweets))

"School counselors do not indoctrinate or willfully transition students. We want nothing more in this world than to help and support students."

- Jill Cook, Executive Director
American School Counselor Association (ASCA)

ASCA is training school counselors to indoctrinate children towards CRT and the Transgender Cult. This is taken directly from their schedule of sessions as part of the ASCA 2022 Conference.

What do we do if a student who is not transgender complains about being uncomfortable with students who are transgender and gender expansive?

We continue to educate our students, as we always have. We report all forms of bullying and harassment to our administrators. Sexual orientation and gender, including gender identity and expression, are protected categories under Title IX, and these students exist in our schools. Just like we don't allow students to discriminate against other students because of their race, religion, disability, etc, we don't allow them to discriminate against students who are transgender and gender expansive. Other students need to coexist with them, period.

Learning Objectives

After attending this session, you should be able to:

Define transgender, gender expansive, and other important terms related to sexuality and gender identity.

Differentiate between sex and gender, and sexual orientation and gender identity.

Identify legal resources that protect students who are transgender and gender expansive, and you as an educator.

Identify areas in your school and district that can better support students who are transgender and gender expansive.

Definitions

Gender Identity

One's innermost concept of self as male, female, a blend of both, or neither – how individuals perceive themselves and what they call themselves. One's gender identity can be the same or different from their sex assigned at birth. Everyone has a gender identity. Only individuals can determine their own gender identity.

Gender Expression

External appearance of one's gender identity, usually expressed through behavior, clothing, body characteristics, or voice, and which may or may not conform to socially defined behaviors and characteristics typically associated with being either masculine or feminine.

Definitions

Birth (or Legal) Name

The name you were given at birth that was recorded on your birth certificate.

Affirmed Name

The name you have chosen.

Deadnaming

Deadnaming is the use of the birth or other former name of a person who is transgender or gender expansive, without the person's consent. Deadnaming may be accidental; however, it may also be used to intentionally dismiss, deny or reject a person's gender identity.

Misgendering

Referring to someone, especially a person who is transgender, using a word, especially a pronoun or form of address, that does not correctly reflect the gender with which they identify.

WHAT PARENTS SHOULD KNOW...

ASCA trains school counselors to hide students' sex and gender preferences from parents. They also partner with radical organizations such as GLSEN and bring in GSA clubs in K-12. These organizations advocate for:

- Pronoun and/or name changes to be hidden from parents
- Transition closets in the classroom without parental knowledge
- Sexually explicit books made available to students
- Transgender topics to be introduced in elementary school
