

EMPATHETIC

CHILD MUTILATION ADVOCATE

The "Empathy" crowd are the cruelest people on the planet

"Empathy is everything. I'm all about empathy!"

What are your thoughts about children being chemically and surgically mutilated?

"Its up to the parents and doctors!"

Schools are indoctrinating students with Transgender ideology and keeping it a secret from parents.

"Parents are abusive and bigots."

AND

Defers to Experts: "I'm not a doctor. But all doctors agree it's good 'healthcare' for children to be chemically and surgically mutilated, so I just follow their lead."

When you cannot speak out against child sacrifice, you're not "empathetic," you're cruel and weak. Through the lens of a Child Mutilation Advocate, "empathy" is not towards the child or parents, it's reserved only for the Transgender Cult.

CALL TO ACTION

NEW QUESTION PARENTS SHOULD ASK

Every time a school personnel tells you, "We're just teaching about <insert virtue>," your immediate feeling should not be, "Oh good, we teach that at home too." We want you to train yourself to ask, "Through WHOSE lens is that trait being taught?"

Traits are not good or bad; it depends on the purpose for which they are being taught. Today in K-12, traits are often taught through the lens of a Critical Race Theorist pushing for anti-American values or a Transgender Activist seeking to separate children from their parents.

"THROUGH WHOSE LENS IS THAT TRAIT BEING TAUGHT?"
